

The background image shows a collection of textile waste, including denim jeans, a pile of grey fabric scraps, and several red spools of thread, all resting on a light-colored surface.

# BUILD YOUR OPINION ON KNOWLEDGE

for reliable and fair circular textile

5-6  
**JUNE**  
2023

Circular Textile Days is a leading event with a focus on circular and sustainable textiles. Our goal is to bring organisations in the entire circular textile chain together in order to exchange knowledge, products and services with each other and creating a sustainable future.

Participating organisations stimulate innovation and the application of circular textiles.

Circular Textile Days informs, among others, about the new circular textile standard NTA 8195, Corporate Sustainability Reporting Directive (CRSD) and legislation and regulations regarding circular textiles (EPR).

Discover realistic, innovative and sustainable textile solutions

Join us at congress centre 1931 in 's-Hertogenbosch (NL)

Partners:

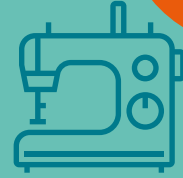

**5-6  
JUNE  
2023**

**SUPPLY CHAIN  
MANAGEMENT**

**YARNS, FABRICS,  
ACCESSORIES**

**DESIGN AND  
PRODUCTION**

**TEXTILE  
SERVICES**

**COLLECTING AND  
DISMANTLING**

**REPAIR, REUSE,  
RECYCLE**

### **REPAIR, REUSE, RECYCLE**

Various recycling technologies will be presented, including innovative solutions and the latest developments in product life extension and reusing discarded textile materials.

### **JOIN THE CHANGE**

Are you already taking steps in sustainable circular textile solutions? Or do you want to start taking responsibility in circular textiles? This is your chance to be part of an innovative circular textile movement.

### **MATCHMAKING**

Participants from all sectors join Circular Textile Days to share knowledge about truly sustainable, circular textiles and to raise awareness of sustainable developments and opportunities.

Get in touch with new and reliable partners in the textile chain who are making the transition as well.
